

Changing Decals for Car Topper

Provided Materials:

- Decals
- Squeegee

Tools Required

- Spray Bottle
- Soapy water

1 Remove the old decal by lifting one corner and peeling up and away from the sign. Discard decal.

2 Clean the sign with the soap and water solution.

3 Remove the backing from the new decal.

4 Spray adhesive side of decal with soapy water. This helps position the decal on the sign.

5 Place decal on the sign and slide into position so that it is straight and centered.

6 Use squeegee to press decal to the sign and remove excess water and air bubbles. Wipe away extra water.
